Inspection Narrative

The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of Adelphoi Village, Inc., Middle Creek III, on 2/24/2020 through 2/27/2020 for licensing year 6/02/2020 to 6/02/2021. During the inspection, the Department reviewed: 10% of the resident files, including files of discharged residents, and the personnel files of all employees. The files were noted to meet all state and federal regulations and statutes. A physical site inspection was completed, and there were no regulatory concerns observed. The Department interviewed two residents and a staff member during the inspection. One resident discussed how the facility staff have helped him during this short stay. He acknowledged the staff treat the youth with respect, and he reported feeling safe. He described the fire drill process, explaining drills are conducted monthly and each time a new staff or new resident enters the facility. The second resident discussed the reward system, which encourages positive behaviors. He described the treatment as "very effective", explaining they are provided with a period of down time to reflect after each session. The staff member interviewed had over five years of experience working in secure care. They explained their role in assisting the youth with the development of independent living skills. In addition, the staff is trained in Aggression Replacement Training (ART) and Medication Administration. The staff member explained the importance of teaching the youth to be respectful and showing them respect, as well.
