Inspection Narrative

The Department of Human Services, Office of Children Youth and Families, Western Region (Department) conducted of Annual licensing inspection of the Sarah Reed Children's Center, Selden Cottage on 7/07/2020 to 7/09/2020 for licensing year on 7/31/2020 to 7/31/2021.

During the inspection, the Department reviewed: 5 percent of all residents files (1 child file); all of the agency's new personnel as well as 5 percent of tenure files. OCYF has reduced the sampling size due to the Governor's Emergency order instructing the Department to limit the amount of in-person contact. OCYF is adhering to all CDC guidelines.

The Department's review of the staff and resident files went smoothly, all of the files were organized and easy review. A physical site inspection was completed, and there were no regulatory concerns observed.

The Department also spoke with staff and a resident during this review period. Staff stated that he is a school supports staff and that he moved into the Unit when the school closed due to Covid 19. Staff said "this is a good change of pace, but he is ready to get back into school again". He stated that they 'residents' are handling Covid 19 better then he was expecting but thinks going back to school would be good them. Staff says he's was well trained so moving into the Unit wasn't difficult at all. The department also spoke with a resident that stated "I haven't been here very long but the program is good and they let me see my family already." She's not sure how long she'll be in placement but feels comfortable with the goals she came up with. She also stated she would like to spend more time outside with peers.
