**1. REGULATION 55 Pa.Code §2600**  
 2600.132(b) - A fire safety inspection and fire drill conducted by a fire safety expert shall be completed annually. Documentation of this fire drill and fire safety inspection shall be kept.

**2a. DESCRIPTION OF VIOLATION**  
 The previous fire safety inspection and drill observed by a fire safety expert was conducted on 4/13/11. The current fire safety inspection and drill observed by a fire safety expert was conducted on 5/3/12.

**3. PLAN OF CORRECTION (POC)** (Attach pages as necessary. Remember that you must sign and date any attached pages.)  
 Include steps to correct the violation described above and steps to prevent a similar violation from occurring again. If steps cannot be completed immediately, include dates by which the steps will be completed.

We have always been in compliance with this regulation. I contact the fire company one month ahead of time. This year the Fire Company's Fire Safety Drill of our facilities was cancelled twice before they could finally come out. The Lieutenant explained to us that they had real fires and other things that came up and that our drills had to be rescheduled to a later date. These two cancellations made us five days late getting the drill done before our 15 day grace period ran out. There should be some kind of concessions that can be made because these are things that are clearly beyond our control. The administrator will contact the fire company even earlier in the future so that we are in compliance with the regulation.
