Violation Report: 14359 - 12/27/2018 - Gillespie, Denise  
 PCH Name: WOODBRIDGE PLACE

1. REGULATION 56 Pa.Code §2600  
 2600.42(b) - A resident may not be neglected, intimidated, physically or verbally abused, mistreated, subjected to corporal punishment or disciplined in any way.

2a. DESCRIPTION OF VIOLATION  
 On 12/12/18 at approximately 10:30 PM, a police officer arrived at the home inquiring if Resident # 1 resided there. The home was not aware the resident had eloped and had traveled approximately 1/10th of a mile. A passerby observed Resident #1 on a dark busy roadway and drove the resident to the address listed on the resident's driver's license. When they arrived, the home was dark and the resident, when queried, did not have a key. The passerby then drove Resident #1 to the Phoenixville Police Department. Resident #1 was transported, by the Police Department, uninjured, except for a tear on the right pant leg, to the home.  
 Staff Member A stated the resident was last seen in his bedroom at approximately 10:00P.M. The home became aware of Resident #1's elopement after he was returned to the home. Resident # 1 resides in the homes memory care SOCU unit.

2600.42(b)

Woodbridge Place will not neglect, intimidate, physically or verbally abuse, mistreat or subject residents to corporal punishment or discipline.

A census count in the Memory Care Community was performed at the time of the incident to ensure that all residents were present. All residents were present. Following the incident, on the evening of December 12, the Maintenance Director noted that the left-hand window in the resident room could be opened more than 6 inches. A stopper was immediately placed on the window frame, allowing for a 6-inch opening. The area outside (underneath the window) was examined and there was no indication of an exit via the window. As of December 13, all Memory Care bedroom windows now have a 6-inch stopper. In addition, on December 12, the Maintenance Director checked each door in Memory Care. Apart from the main entry door into Memory Care, all door alarms were operational and functional. All staff had knowledge that the main entry door into Memory Care was in the process of repair. There was a note affixed to the inside and outside of the door indicating that the door was not in operation. In addition, a yellow caution tape was affixed to the door (door frame to door frame) indicating caution. Upon examination of the door on the evening of 12/12/2018, the caution tape remained intact as was not disturbed. There was no evidence that anyone exited through the door. The Memory Care door was repaired 12/14/2018. The resident was placed on 1:1 for 24 hours and was reassessed at the end of that time frame. In addition, the codes to the Memory Care doors were changed. Completed: 12-12-2018

All staff were inserviced relating to the importance of hourly checks, with emphasis placed on safety and awareness of resident location in Memory Care. The Elopement Policy and Procedure was reviewed and reinforced with staff as well as the initial risk assessment. Completed: 12-13-2018 Attachment: 1

Observation and monitoring of interventions are the responsibility of the Resident Care Coordinator. Continued compliance with stated interventions will be reviewed weekly by the Resident Care Coordinator. Any areas of non-compliance will be corrected immediately with the staff person involved. Outcomes will be documented and included in the Quality Assurance Meeting Scheduled for March 21, 2019.
