The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of Pressley Ridge School for The Deaf - Building 1 on 3/11/2019 to 3/13/2019 for the licensing year 5/15/2019 to 5/15/2020. During the inspection, the Department reviewed: 10% of the agency's child files, including discharged child files, and all personnel files, which included new and tenured employees. The child files were determined to be in compliance with state and federal laws and regulations. During the personnel file review, the Department identified two personnel files that did not contain a health statement within the mandatory two-year period. This will result in the issuance of a citation, and the regulatory violation is further explained below. A physical site inspection was completed, and there were no regulatory concerns noted. The Department interviewed a child and a staff member during this inspection. The child stated the staff had good communication skills. The staff member reported they utilize a de-escalation technique that emphasizes proper spacing, which creates a safe environment.
