Inspection Narrative

The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of the Adelphoi Village, Inc., Vincent, on 2/24/2020 through 2/27/2020 for licensing year 6/02/2020 to 6/02/2021. During the inspection, the Department reviewed: 10% of the resident files, including files of discharged residents, and the personnel files of employees. The files were noted to meet all state and federal regulations and statutes. A physical site inspection was completed, and there were no regulatory concerns observed. The Department interviewed a resident and staff member during the inspection. The Department interviewed one staff member and one resident during this inspection. The resident reported they have never been involved in a restrictive procedure, and when one does occur, it is initiated because a resident has become aggressive. The resident explained his Individualized Service Plan (ISP) was discussed during a meeting held in October, and he explained his goals. The staff member explained how she uses Career Readiness, specifically culinary classes, to provide residents with a skill they can use when looking for employment upon completion of the program. She discussed how de-escalation techniques are used to remove residents from possible problematic situations, and while she is trained in Safe Crisis Management (SCM), she has never needed to use a restrictive procedure.
