Inspection Narrative

The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of the Adelphoi Village, Inc., Loyalhanna, on 2/24/2020 through 2/27/2020 for licensing year 6/02/2020 to 6/02/2021. During the inspection, the Department reviewed: 10% of the resident files, including files of discharged residents, and the personnel files of all employees. The files were noted to meet all state and federal regulations and statutes. A physical site inspection was completed, and there were no regulatory concerns observed. The Department interviewed a resident and staff member during the inspection. The resident explained how he was placed in physical restraints when he first arrived at the facility because the level of his aggression warranted them. He described the medication administration procedure at the facility and reported taking his medication daily. He explained fire drills occur monthly, at different times of day, and they always experience a drill when a new staff starts. The staff member reviewed de-escalation techniques they use to calm an agitated resident. They explained the importance of de-escalation techniques to reduce the number or restrictive procedures. The staff member explained the impact of Choice Theory training on the residents' treatment.
