Inspection Narrative

The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of the Adelphoi Village, Inc., Margaret, on 2/24/2020 through 2/27/2020 for licensing year 6/02/2020 to 6/02/2021. During the inspection, the Department reviewed: 10% of the resident files, including files of discharged residents, and the personnel files of all employees. The files were noted to meet all state and federal regulations and statutes. A physical site inspection was completed, and there were no regulatory concerns observed. The Department interviewed a resident and staff member during the inspection. The resident reported having a positive experience at the facility. He explained the treatment component of the program is helpful to most residents; however, there are those who struggle and refuse to participate. The staff member reported feeling well-trained and prepared for their role working with the youth. They discussed their preferred use of de-escalation techniques and explained how this practice reduces the need to utilize restrictive procedures.
