Inspection Narrative

The Department of Human Services, Office of Children, Youth and Families, Western Region (Department) conducted an annual licensing inspection of the Adelphoi Village, Inc., Benet, on 2/24/2020 through 2/27/2020 for licensing year 6/02/2020 to 6/02/2021. During the inspection, the Department reviewed: 10% of the resident files, including files of discharged residents, and the personnel files of all employees. The files were determined to meet all state and federal regulations and statutes. A physical site inspection was completed, and there were no regulatory concerns observed. The Department interviewed a resident and staff member during the inspection. The resident stated he feels safe at the facility and has never required a restrictive procedure. He discussed the process to review his Individual Service Plan (ISP), and he described the medication administration procedure. The staff member explained the importance of Safe Crisis Management (SCM) training and "Sexual Issues" training. They reported they have not had to initiate a restraint over the past year and credited the use of effective de-escalation techniques.
