Description of Violation

Resident #1's most current Resident Assessment and Support Plan (RASP) was completed 7/7/2019. The resident was readmitted to the home on 6/14/20 after staying in a skilled nursing facility from October 2019 to June 2020. The home did not complete a new or annual RASP for the resident.

Plan of Correction**Accept**

The home used the RASP that we had done, he was in nursing home but bed was held. The home will note on RASP anymore if any changes with the return home or will do a new RASP from residents returning from nursing homes.

Completion Date: 09/08/2020

Update - 09/15/2020

The home shall send to the department a copy of Resident #1's current RASP.

Ongoing-

The administrator will develop a system to ensure that all assessments are done correctly, completely, and within the time frames required by this Chapter.

Document Submission**Implemented**

The home did new rasp next two days after this was found. our system is always the same when we get the new dme in from doctor we do rasp the same day. with everything going on the admin must of missed the date, but will ensure that they will all be done with in the 30 day window of renewal.
