3800.143 Child Health Examination**1. Requirements**

3800.143.a. A child shall have a health examination within 15 days after admission and annually thereafter, or more frequently as specified at specific ages in the periodicity schedule recommended by the American Academy of Pediatrics, "Guidelines for Health Supervision," available from 141 Northwest Point Boulevard, Post Office Box 927, Elk Grove Village, Illinois, 60009-0927.

Description of Violation

In 1 of 2 child records reviewed, Child #2 was admitted to the facility on 3/15/2021 and a physical examination was not completed within 15 days of admission. There was no documentation of efforts made to get the child the examination, and the reasons why the initial examination was not completed was not documented. This is not in conformity with the COVID-19 pandemic exceptions.

The agency shall develop a plan to assure that this mandate is being met. The plan shall identify the staff position responsible for monitoring and ensuring regulatory compliance.

Plan of Correction**Accept**

The initial health examination for child 2, arriving on 3/15/2021, was not completed within the 15-day timeframe due to the worldwide COVID-19 pandemic. Included in the clinical record was documentation as to the reasoning for the delay in the health examination. Not until recent months was our agency verbally provided with additional expectations of the Department; obtaining letters from our medical providers as to their services being paused in accordance with the Governors orders in relation to the COVID-19 pandemic.

Our medical providers have been provided with all of the necessary documentation for scheduling purposes and the program is waiting on appointment date confirmation. Health examinations for arriving clients will occur within the 15-day timeframe. In case of another world health crisis, such as a pandemic, the unit will ensure each medical provider is contacted and documentation as to the pause in their services is within the clinical record for each client; unless directed otherwise by the Department. This information was reviewed with Unit Directors and Programs Directors on May 27, 2021, by the Vice President of Residential Services. This information will be disseminated to staff via Unit Directors following this meeting.

The Unit Director is responsible for monitoring and ensuring compliance.

3800.144.b. A child who is 3 years of age or older shall have a dental examination performed by a licensed dentist and teeth cleaning performed by a licensed dentist or dental technician at least semiannually. If a child has not had a dental examination and teeth cleaning within 6 months prior to admission, a dental examination and teeth cleaning shall be performed within 30 days after admission.

The initial dentals for child 2 were not completed within the 30-day timeframe due to the worldwide COVID-19 pandemic. Documentation as to the reasoning for the delay in the initial dentals were recorded in the clinical records. Not until recent months was our agency verbally provided with additional expectations of the Department; obtaining letters from our dental providers as to their services being paused in accordance with the Governors orders in relation to the COVID-19 pandemic.

The Vice President of Residential Services is continuing to actively search for a provider that is best able to meet the needs of the clients in the program. In case of another world health crisis, such as a pandemic, the unit will ensure each dental provider is contacted and documentation as to the pause in their services is within the clinical record for each client; unless directed otherwise by the Department. This information was reviewed with Unit Directors and Programs Directors on May 27, 2021, by the Vice President of Residential Services.
