Inspector(s): [redacted]

Inspection Narrative

The Department of Human Services Office of Children, Youth, and Families (Western Region) conducted an annual licensing inspection of New Outlook Academy on 12/7/2022 and 12/8/2022 for licensing year 4/21/2022 to 4/21/2023. During the inspection, the Department reviewed ten (10) percent of the agency's resident files (including discharged resident files) and the agency's personnel files, to include all employees who have direct contact with the youth. Overall file reviews supported compliance with state/federal laws and regulations. Violations identified involved timely child dental, vision, and hearing screenings. Additionally, a violation involving one clearance for a staff member was also identified. Specifically for the day treatment program, timely child physical examinations were not completed. A physical site inspection was completed, and there were no regulatory violations identified. Interviews with both youth and staff members were conducted. Youth interviews described both treatment and education opportunities they have in the program; positive relationships with staff members and feeling that their concerns are addressed; participation in routine fire drills; and opportunities to leave the facility for home passes. Staff members described being supported by facility leadership; understanding of trauma-informed care and its impact on all aspects of the program; and consistent training opportunities.
