3800.82 Poisons**1. Requirements**

3800.82.a. Poisonous materials shall be kept locked and inaccessible to children.

Description of Violation

On 07/17/2023, a walk through of the facility determined a poisonous material was located in the kitchen and accessible to children. [REDACTED]

The agency shall develop or revise a policy to ensure that all poisonous materials are locked away and not accessible to children. The plan shall include the staff position responsible to monitor and ensure regulatory compliance as well as what date the plan shall be implemented.

Plan of Correction**Accept ([REDACTED] - 12/22/2023)**

- The client was immediately accessed by medical professionals and was medically cleared to return the program after observations.*
- Immediately following the incident, staff conducted a walkthrough of the program to ensure any other potential harmful materials were inaccessible to the clients.*
- The agency held an interdisciplinary case consultation to review the incident. Out of the consultation, the following points were addressed (1) reviewed in staff meeting that all chemicals need to be locked at all times when not in use as per the policy (2) lock placed on kitchen door (3) additional proactive risk assessment completed by the Program Director*
- The ensure compliance, once a week, the Unit Director will complete a Morning Walk Through focusing on poisonous material and other safety risks. After completion, the Unit Director will email the Program Director, Compliance Caseworker and Director of QA. Weekly submission will be required for the next 4 weeks for monitoring purposes.*
- Any issues will be addressed immediately by the Vice President of Residential Services.*
- The Unit Director is responsible for monitoring and ensuring compliance.*
