132b - Safety Inspection/Fire Drill

1. Requirements

2600.

132.b. A fire safety inspection and fire drill conducted by a fire safety expert shall be completed annually. Documentation of this fire drill and fire safety inspection shall be kept.

Description of Violation

The last fire drill observed by a fire safety expert was conducted on 9/13/2023.

Plan of Correction

Accept ([redacted]) - 02/25/2025

EOO [redacted] scheduled with Chambersburg Fire Department to come to the community to witness a fire drill on 2/10/2025 (see attachment).

The fire drill was completed successfully with no issues or concerns and within our fire evacuation time of 12 minutes set by our fire safety inspector at PA Municipal Code Alliance. (see attached)

In 2024 The Chambersburg Fire department responded to our community following two full fire evacuations (dates attached) their observations found us compliant with evacuation standards as they were actual fire alarms on those two specific dates.

Additionally, our Safety and Maintenance Director does all of our monthly drills and holds a certification from Northampton Community College (see attached).

It is now noted by EOO [redacted] and SME [redacted] that this certification surprisingly does not meet the departments requirements to do the annual fire drill observation.

Fire safety is of utmost importance to our community and a standard in which we are diligent and dutiful.

The plan moving forward will require that the annual witnessed fire drill be done on the day of our annual training with the fire department regardless of other witnessed evacuations to avoid this violation in the future.

[redacted] EOO

Licensee's Proposed Overall Completion Date: 02/25/2025

Implemented ([redacted]) - 03/10/2025
