Plan of Correction**Accept [REDACTED] 05/26/2026)**

Staff Member A and Staff Member C have received updated annual practicums via an out of building med tech trainer named Caroline in March of 2026. Staff Member B and Staff Member D are no longer employed at the facility. A review of resident [REDACTED] medication administration record confirmed no adverse outcomes. An audit of all staff authorized to administer medications was conducted to verify compliance with training and practicum requirements. The facility has implemented a tracking system to monitor initial training and annual practicum due dates, including advance notifications to prevent lapses. Staff have been re-educated on the requirements of PA DHS 2600.190(a), including the necessity of completing an annual practicum to maintain competency. The Administrator will conduct ongoing monthly audits to ensure continued compliance and will address any discrepancies promptly.
