Inspection Narrative

The Department of Human Services conducted an annual licensing inspection of Adelphoi Village, Inc Manor Detention on February 4, 2026, for the licensing year extending from May 9, 2025, to May 9, 2026. During the inspection, Departmental staff reviewed 5 of 5 newly hired personnel records, 17 of 17 tenured personnel records, and 10 of 128 child records. All pre inspection documents were reviewed, including fire drills, to measure compliance. During the inspection, a physical site walk through was completed. 2 staff members and 2 children were interviewed.

The following area of non compliance was noted:

3800.142 Health and Safety Plan**1. Requirements**

3800.142. If the health and safety assessment in § 3800.141 (relating to health and safety assessment) identifies a health or safety risk, a written plan to protect the child shall be developed and implemented within 24 hours after the assessment is completed.

Description of Violation

In 5 of 10 child records reviewed, the following was found regarding safety plans:

The records of Child B, C, D, H and I indicate that the child has a present history of a health or safety risk and a safety plan was not located in the record.

The agency shall develop a plan to assure that this mandate is being met. The plan shall include the staff position responsible for monitoring and ensure regulatory compliance.

Plan of Correction**Accept (████ - 03/04/2026)**

- *Safety plans were not created for clients (D,H,I) after the inspection, due to the clients discharging before the inspection date.*
- *A safety plan was not created for client (B) due to the client not having "present" safety concern, but rather a "past" concern noted.*
- *A safety plan was not created for client (C) due to the client not presenting a current safety concern, due to being in the program for over two weeks, at the time of the inspection.*
- *On February 12th, the Unit Director will meet with program shift supervisors to discuss the safety plan changes being made. Communication will ensure that all present concerns identified on the health and safety assessment are specifically addressed in a safety plan within the program.*
- *On February 12th, during staff meeting, the safety plan changes will be communicated with the entire program staff team.*
- *During clinical supervision, on 2/20/2026, the Unit Director and Clinical Coordinator will discuss the safety planning changes, focusing on documentation.*
- *For the next two months, the Compliance Caseworker will select 4 random new admissions to review the health and safety assessment and safety plans, to ensure proper safety measures are being addressed.*
- *Program leadership is actively involved in the preparation stages for the future change over into the electronic health record system. This system will prompt automatic safety plans for all concerns that are identified when completing the electronic health and safety assessment.*
- *Unit Director and Regional Program Director are responsible for monitoring this plan.*

Licensee's Proposed Overall Completion Date: 05/01/2026

On-site Verification**Implemented (████ - 04/07/2026)**
