141b1 - Annual Medical Evaluation

1. Requirements

2600.

141.b.1. A resident shall have a medical evaluation: At least annually.

Description of Violation

Resident [REDACTED] annual medical evaluation dated [REDACTED] does not include the resident's height, weight, pulse rate and temperature.

Resident [REDACTED] annual medical evaluation dated [REDACTED] does not have a date of evaluation, or immunization history.

Resident [REDACTED] most recent medical evaluation was completed on [REDACTED].

Repeat Violation: [REDACTED]

Plan of Correction

Accepted [REDACTED] - 03/25/2026)

Resident [REDACTED] returned to the home following a rehabilitation stay prior to the licensing inspection. Upon return, the resident's condition, functional status, and current care needs were reviewed by facility leadership and staff. A reassessment of the resident's care requirements was initiated to ensure services and supports matched the resident's present level of need.

Since the inspection visit, Barry has returned to the home with 24-hour companionship services in place to provide continuous monitoring, assistance, and added support for safety and continuity of care while awaiting transition to a higher level of service.

A new DME (Direct Medication Evaluation / assessment as applicable to your facility documentation process) was completed on 3/18/2026 to reflect the resident's current condition, service needs, and updated care requirements following [REDACTED] rehabilitation stay and return to the facility.

The interdisciplinary team has also coordinated discharge planning with family and outside providers, and Barry is anticipated to transition to Birches of Lehigh Valley on 3/26/2026 for continued care at an appropriate level based on [REDACTED] present needs.

Going forward, all residents returning from hospital or rehabilitation stays will have:

- immediate review of discharge paperwork,
- updated assessment upon return,
- medication and treatment reconciliation,
- revised support plan if indicated,
- and leadership review to ensure continuity of care.

Facility staff have been reminded of the importance of obtaining complete discharge communication from outside providers and updating resident records promptly upon readmission.

The facility acknowledges that Resident [REDACTED]'s annual medical evaluation dated 01/22/2025 did not include the date of evaluation or immunization history at the time of the inspection.

Upon identification of this deficiency, the facility continued pre-inspection initiatives of corrective action. The resident's medical provider was contacted (from January till 3/24/2026), and the medical evaluation was reviewed

141b1 Annual Medical Evaluation (continued)

and updated to include the missing date of evaluation and immunization history or lack thereof to ensure compliance with regulatory requirements.

The most recent medical evaluation for Resident [REDACTED] was completed on 01/21/2026, and the form completed 3/24/2026, have now been verified as complete and accurate in the resident's record. This took numerous phone calls, faxes, and follow ups until an office visit was done by the administrator. The form will be completed annually within 12 months of the in person evaluation date.

To prevent recurrence, the following measures have been implemented:

- All medical evaluations will be reviewed upon receipt by administration or designee for completeness, including required elements such as date of evaluation and immunization history.
- Staff responsible for admissions and ongoing record maintenance have been re educated on regulatory requirements for medical evaluations under PA DHS 2600.

The Administrator or designee will conduct monthly audits of resident records to ensure ongoing compliance.

Licensee's Proposed Overall Completion Date: 03/24/2026

Implemented [REDACTED] - 03/30/2026)
