121a - Unobstructed Egress

1. Requirements

2600.

121.a. Stairways, hallways, doorways, passageways and egress routes from rooms and from the building must be unlocked and unobstructed.

Description of Violation

At 9:18am, there was a chair outside the emergency exit door near bedroom [REDACTED] blocking this egress route.

Plan of Correction

Accept [REDACTED] - 09/14/2026)

On the day of inspection the Operations Manager moved the chair so that it was not blocking the egress route.

On 8/27/26 the Operations Manager removed one of the chairs on the side porch, leaving two remaining. An X was placed on the ground where the two chairs should be placed, so that they do not block an egress route.

The Operations Manager will also mark off an area in front of the exit door, noting where items should not be placed, so that the egress route remains clear.

The Operations Manager will educate staff on this procedure, and the importance of keeping all egress routes clear, at the next scheduled staff meeting on 9/8/26.

The Case Manager will educate all residents on this procedure, and the importance of keeping all egress routes clear, at the next scheduled house meeting on 9/10/26.

The Operations Manager or Health & Safety Representative will continue to complete monthly site inspections, utilizing an Internal Risk and Hazard Inspection Form to identify any hazards blocking safe exit routes.

Updated:

Staff education from the 9/8/26 staff meeting will be kept.

The area in front of the exit door, noting where items should not be place, will be marked off by 9/15/26.

Beginning the week of 9/14/26, the Operations Manager or a designee will inspect all stairways, hallways, doorways, passageways and egress routes from rooms and from the building on a weekly basis for 1 month, and then on a monthly basis, to ensure all are unlocked and unobstructed. Documentation of egress audits will be kept.

Licensee's Proposed Overall Completion Date: 09/19/2026

Implemented [REDACTED] 09/22/2026)
